A Web 2 Mayhem Review

Not too much time gone by I was lucky enough to be invited to become a new Beta tester on a brand-new system put out by Jason Katzenback along with Jason Potash, which is called Web 2 Mayhem. Right off the bat I want to express to you that it became probably one of the better things I had encountered in years.

I am going to throw formality out the window with this Article 'cause I want to talk to you like I would a best friend. You have GOT to try Web 2 Mayhem, man! Seriously, I had been about to throw in the towel on seeing any results with driving Web Traffic to my Web site until I took part in the Web 2 Mayhem Beta Testing, in which merely Two hundred men and women ended up invited to take part!

If you want someone to take your hand and literally guide you every step of the way, through everything you need to do, in extreme detail, to drive tons of targeted traffic to your Website through high Search Engine rankings, specifically Google, then you need to do yourself a HUGE favor and get on the Official List for Web 2 Mayhem! (Details Below).

Listed below are the various best parts of the Web 2 Mayhem Product that I will use in my personal [Web 2 Mayhem Review](#).

First class Submission Software

The Web 2 Mayhem Software comes with some of the Best Automated Submission Software I have ever seen. It includes: Account Creator, RSS Announcer, Social Bookmarker, Video Sharer, Article Distributor, Blog Poster, PAD Submitter

Stay Tuned! I will be going over each of these steps in more details later in a forthcoming Post of my [Web 2 Mayhem Review](#). You wont want to miss this!

Syndicated Tools

In my Review of Web 2 Mayhem, I was also guided on how to use their exclusive Syndicate Tools. These tools gave me the opportunity of having content automatically posted to my blog, as well as the option of having MY content (with my links) blasted to tons of blogs, thus creating hundreds of links to my Website.

This is completely amazing to me, and it's all automated! It is for sure one of the best tools in the program!

Three Way Link Exchange

The Web 2 Mayhem also has an exceptional Link Exchange system that is also fully Automated. It automatically trickles more and more links to your site every day, up to 100! Also Included In The Program Are The Following Tools: Blog Network, Web 2. Co op, Redirect Kahuna, Keyword Research Tool, Keyword Manipulator Tool, Geography Keywords Tool, Longtail Generator Tool. These features will be discussed in my upcoming Articles. So, STAY TUNED, MORE TO COME!...
